Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8-13, 15-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Jayaraman-5,893,887.

As to claims 1-6, 8-13, 15-21, Jayaraman-'887 (Figs. 5 and 8, for example; col. 2, lines 23-29) discloses an acutely angled end stent of 30° or 45° or 60° having radiopaque coating at the ends for easy viewing during a deployment substantially as recited in the claims.

As to claims 22-23, Jayaraman-'887 (Fig. 5) inherently discloses a method of implanting as recited in the claim. Alternatively, it is obvious to one of ordinary skill in the art to use a balloon to place stent 10 as shown in Fig. 5 in a process/method as recited in the claims.

As to claim 24, Jayaraman-'887 (Fig. 5) inherently discloses a method of fabricating the stent as recited in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3773

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jayaraman-5,893,887 in view of Chen-6,939,863.

As to claims 7 and 17, Jayaraman-'887 discloses substantially the claimed invention, except for a drug coating to prevent re-stenosis. However, Chen-'863 (col. 2, lines 25-34) discloses a stent with a drug eluting coating to prevent restenosis. It would have been obvious to one of ordinary skill in the art to provide a drug coating to Jayaraman-'887 stent as taught by Chen-'863, as this configuration would make Jayaraman-'887 stent more resistant to restenosis.
